DETAILED ACTION

1. A Request for Reconsideration was filed 1/9/06.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 46 is rejected under 35 U.S.C. 102(e) as being anticipated by Kouno 5947224.

Kouno discloses a four-wheel drive assembly (c1, ln 9-10) comprising
Torque transfer assembly 4 including controller 50 (fig 1),

The controller sensing the wheels as being on a surface with a low coefficient of friction (c10, ln 57-58), and,

Increasing torque to a slower pair of wheels (c10, ln 63-65) upon a sensed slip condition after the presence of the surface is sensed.

3. ALLOWABLE SUBJECT MATTER

- a. **Claims 38-45 are allowable.**
- b. **Claims 47-53** are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Prior art does not disclose a four-wheel drive assembly for a vehicle having two pairs of wheels comprising, *inter alia*, a preemptive mode which occurs only after the occurrence of a first mode, the preemptive mode increasing torque to a slower pair of wheels after determining that a slip condition is likely to occur on the basis of the vehicle speed, and a position of either the accelerator or throttle plate.

4. RESPONSE TO REMARKS

A new rejection is provided for Claim 46, employing Kouno to obviate the recited elements. Examiner apologizes for the inconvenience. All other claims contain allowable subject matter.

6. Communication with the Examiner and USPTO

Any inquiry concerning this communication, or others, should be directed to Ms. Lum at 571 272-6649, M-F, 9-5. If attempts to reach the examiner are unsuccessful, her supervisor, Ms. Lesley Morris is at 571 272-6651. Our fax number is 571 273 8300.
